HyperX SoloCast

For video editors, streamers, and gamers looking for a USB microphone with great sound quality, the HyperX SoloCast is a must have. It's Plug N Play, making it simple to use, with some of our fan-favorite conveniences like the tap-to-mute sensor and LED mute indicator. The versatile microphone has a flexible, adjustable stand and is also compatible with most boom arms, so it can either sit on your desk or work mounted. Certified by TeamSpeak and Discord and compatible with OBS, XSplit, Streamlabs OBS and a number of other programs, it's an extremely streamer-friendly microphone.

Features

-  Plug N Play audio recording
-  Tap-to-Mute sensor with LED status indicator
-  Flexible, adjustable stand
-  Boom arm and mic stand threading
-  Multi-device and program compatibility

Plug N Play audio recording

Get quality audio recordings with this easy-to-use USB condenser microphone. The cardioid polar pattern prioritizes sound sources directly in front of the microphone.

Tap-to-Mute sensor with LED status indicator

Simply tap the top of the mic to mute, and the signature LED indicator lets you immediately see whether or not you're broadcasting.

Flexible, adjustable stand

The easy-to-position stand swivels to support a variety of setups. You can even fit it under a monitor if your setup is tight on space.

Boom arm and mic stand threading

Versatile microphone fits 3/8-inch and 5/8-inch threaded setups, making it compatible with most mic stands or boom arms¹.

Multi-device and program compatibility

Get great sound whether you're connecting to a PC, PS5™, PS4™, or Mac®. SoloCast is certified by Discord and TeamSpeak™, and works on major streaming platforms like Streamlabs OBS, OBS Studio, and XSplit.
